The Republican Scientific and - Practical Center for Pediatric Surgery

The Republican Scientific and Practical Center for Pediatric Surgery was created on January 1, 2015 on the base of the Pediatric Surgery Center and the Republican Scientific and Practical Center CARDIOLOGY. A significant number of children need simultaneous surgical assistance of surgeons as well as cardiac surgeons. The world's experience of pediatric cardiac centers shows that the best results in treatment of these children are achieved in the centers practicing all the types of surgical help.
